

## Virtual Conference For Caregivers and Practitioners Overcoming Communication Barriers & Disruptive Behaviors

Wednesday, November 23, 2022

1:00 pm – 3:30 pm **Eastern**

Professional advice and guidance.

Q & A session.

This 2 – ½ hour online conference including Q & A, is intended for those who interact with the cognitively impaired and are interested in understanding how the **effective strategies** and **practical solutions** provided by the Montessori method adapted for the cognitively impaired can **help** the parties overcome communication difficulties and disruptive behaviors.

**[Register one person - \\$35](#)**

**[Register a group of 3 or more - \\$25 per Person](#)**

### What you'll learn:

- To **recognize and understand** communication barriers affecting those who work with the cognitively impaired.
- How to help improve the **self-esteem** and level of autonomy of the person living with dementia.
- **Proven strategies & techniques** to allow greater positive communication.
- To **recognize and decipher** problematic behaviors.
- New ways to better **sense and feel** what the afflicted person is trying to express, be it verbally or non-verbally.

PowerPoint Presentation, real life examples and videos based on the application/integration of the Montessori method.

100 spots available. This conference fills up quickly. Please register early.
